

BIOJUVE™ HYDRATING BARRIER CREAMS

Two versions:
Normal to Oily

and Normal
to Dry

Both are non-greasy
and lightweight

Product Description

This lightweight, moisturizing Hydrating Barrier Cream comes in two versions, Normal-to-Dry and Normal-to-Oily. Both versions were designed to enhance the performance of BIOJUVE Living Biome Essentials Serum by protecting the living microbe technology from disruption caused by common ingredients found in makeup and sunscreen.

Skin Concerns

This multi-tasking sidekick supports skin's natural defenses against exposure to environmental factors, primes the skin for makeup application, and leaves skin smoother, moisturized, and well-balanced. In short, it makes every other part of your routine better.

Why It's Different

BIOJUVE cares for both skin and its microbiome to help skin achieve its full

potential. BIOJUVE uses living microbes to produce and deliver an unmatched blend of key Bioessentials™ that work with our skin's natural biology for a wide range of skin health benefits and delivers fast results.

How To Use

Use this product as the step in your daytime regimen before applying makeup and/or sunscreen. Apply a thin, even layer to the face and gently massage into the skin.

Key Ingredients

The Hydrating Barrier Cream Normal to Dry contains a mixture of amino acids that aid in soothing and moisturizing the skin barrier. The Hydrating Barrier Cream Normal to Oily contains Aluminum Starch Octenylsuccinate which is a powder that absorbs skin oils/sebum to create a matte appearance.

Ingredients

Hydrating Barrier Cream (Normal to Dry): Aqua (Water), Acetamidoethoxyethanol, Caprylic/Capric Triglyceride, Squalane, Glycerin, Glyceryl Stearate, Saccharide Isomerate, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Aloe Barbadensis (Aloe Vera) Leaf Juice, Benzyl Alcohol, Polyglyceryl-6 Palmitate/Succinate, Bisabolol, Tocopheryl Acetate, Polyester-7, Neopentyl Glycol Diheptanoate, Polysorbate 60, Sorbitan Isostearate, Cetearyl Alcohol, Sodium Hyaluronate, Sodium PCA, Sodium Lactate, Arginine, Aspartic Acid, PCA, Glycine, Alanine, Serine, Valine, Proline, Threonine, Isoleucine, Histidine, Phenylalanine, Beta-Glucan, 1,2-Hexanediol, Caprylyl Glycol, Sodium Benzoate, Allantoin, Palmitoyl Tripeptide-5, Citric Acid, Sodium Citrate, Potassium Sorbate.
